Conferences and Workshops of VI Symposium on Optics & Biophotonics:

- Optical Technologies in Biophysics & Medicine XX
 - Laser Physics and Photonics XX
 - Spectroscopy and Molecular Modeling XIX
- Electromagnetics of Microwaves, Submillimeter&Optical Waves XVIII
 - Nanobiophotonics XIV
 - Internet Biophotonics XI
- Microscopic and Low-Coherence Methods in Biomedical and Non-Biomedical Applications XI
 - Nonlinear Dynamics VIX
 - Low-dimensional structures VIII
 - Biomedical Spectroscopy V
- Computational Biophysics and Analysis of Biomedical Data V
- Advanced Polarization Technologies in Biomedicine and Material Science V
 - Laser and Optical Technologies for Brain Physiology and Pathology II
 - Terahertz Optics and Biotechnology
 - Advanced Materials for Optics and Biophotonics

Workshops of XXII International School for Junior Scientists and Students on Optics, Laser Physics & Biophotonics

- Modern Optics XVII
- English as a Communicative Tool in the Scientific Community XVII
- Workshop on Management of High Technologies Commercialization and Regional Innovation Systems XV
- History, Methodology and Philosophy of the Optical Education XI
