

## SFM'20 Special Event:

### The Henri Poincaré Webinar Series on Optical Polarization and Related Phenomena

This series of webinars will bring together an international audience interested in exploring topics associated with optical polarization and related phenomena. Monthly webinars will be presented by leaders in the field, and ample time will be provided for live discussion of the topic. Initiated during the COVID-19 pandemic, the series will attempt to replicate as much as possible the dynamics of in-person conferences.

We currently have our first four speakers lined up:

- **September 29, 2020 – 15-00 UTC (19-00) – Miguel Alonzo (Institut Fresnel)**
- October 27, 2020 – 13-00 UTC (17-00) – Federico Capasso (Harvard University)
- November 24, 2020 – 13-00 UTC (17-00) – Frans Snik (Universiteit Leiden)
- December 29, 2020 – open
- January 26, 2020 – 13-00 UTC (17-00) – Bart Kahr (New York University)

Saratov Region time - UTC is + 4-00 hours

More details will follow! To join the mailing list, go to <https://groups.google.com/g/the-henri-poincare-webinar-series> and click Join. If you have trouble joining, email [thomas.germer@nist.gov](mailto:thomas.germer@nist.gov) with a request to be added to the list directly.

We hope you can join us!

Best regards,

Thomas Germer
